## EDUCATION

### IIT KHARAGPUR

Jul 2018 - Apr 2022

- Bachelor of Technology (B.Tech) | Electronics & Electrical Communication Engineering | CGPA: **8.45/10**
- Computer Science Coursework:** Algorithms, Programming and Data Structures, and Data Analytics

## EXPERIENCE

### FULL STACK DEVELOPER

Aug 2022 - Present

VMock India Private Limited

Gurgaon, Haryana

- Optimized Laravel-based web service latency from **700ms** to **35ms** through performance tuning strategies: **SQL query** enhancements, **database indexing**, **architecture improvements**, and **caching**, enabling **30x** system scale-up with zero downtime
- Led **React** frontend development achieving **50%+** uplift in user engagement by implementing intuitive user flows, enhancing data visualizations, and optimizing components for near-instant rendering
- Reduced client-specific configuration time by **50%** through codebase restructuring and automating internal services, Optimization **doubled** product delivery speed, Technologies Introduced: **AWS S3**, **AWS SQS**
- Prototyped and Developed **web-push** based push notification system supporting **120+** notification types
- Transformed static login page into dynamic authentication interface with **10+** customization options, empowering clients to craft branded experiences
- Re-engineered **monolithic** utility module into a **scalable Python Flask micro service** with a dedicated **API**, containerized using **Docker** and **Kubernetes** to enable decentralized access across system modules
- Enhanced a **Java** application based on client needs and launched **executable(.exe)** across multiple clients
- Empowered software engineering team by **automating** analytical tasks, saving over **30+** person-hours monthly
- Revamped 2 user-facing modules, transforming product usability and simplifying user experience

### SUMMER INTERN | SOFTWARE DEVELOPER

May 2021 - Jun 2021

Citrix Systems, Inc.

Bangalore, Karnataka

- Acquired hands-on experience with Azure Functions, **Kubernetes**, **Docker**, and different certificate formats

## PROJECTS

### UPDOWN

- Designed and built a cloud-based file management system using a **three-tier architecture** with a **React.js** frontend, **Python Flask** backend API, and **MySQL** database, leveraging **AWS S3** for file storage
- Implemented comprehensive features including **user authentication**, **search functionality**, and **pagination**
- Rapidly delivered a fully containerized (**Docker**) full stack web application within an aggressive **2 day** timeline

## SKILLS

**Frameworks:** React, jQuery, Bootstrap, Flask, Laravel, Express.js

**Tools & Technologies:** SQL, NoSQL, Node.js, MongoDB, uWSGI, HTML5, CSS3, Git, Figma, Postman

**Cloud Services:** AWS S3 (Storage), AWS SQS (Message Queuing), AWS SNS (Notifications), Docker, Kubernetes

**Programming Languages & Concepts:** C++, C, Python, PHP, JavaScript, Data Structures and Algorithms, OOP

## ACCOMPLISHMENTS

- Achieved **99.8** percentile in **JEE Advanced 2018** and **99.95** percentile in **JEE MAINS 2018**
- Secured **680th** rank in Andhra Pradesh **EAMCET** and **561st** rank in Telangana **EAMCET**
- Solved **500+** Data Structures and Algorithms problems across InterviewBit, LeetCode and geeksforGeeks

## CERTIFICATIONS

- Mastering Data Structures and Algorithms in C and C++**, Udemy: Learned coding in C and C++
- Docker and Kubernetes, The Complete Guide**, Udemy: Learned all about containerization
- Web Development Bootcamp**, Udemy: Learned complete software development life cycle using React and Node
